photo editor might be called a "photoshop alternative" or a "photo editor." It could really be called anything, but at the very least, it should be called a free photo editor. There are dozens of good online photo editors to test drive.

---

room. We did ask for our room to be moved to a higher floor which was done the next day.... I stay here every so often when I am in Baltimore. They let the dogs stay in the high floors and have service dogs so we had no problems with the area at all. There is always a small charge per dog, but it's worth it.

I always find there is a room available. This hotel is in a very good location for both business and leisure travelers. (It's only 1 block from the Inner Harbor.) We were there for a business trip and the room was spacious and clean. It was quiet in the evening and a nice hot shower. I have

---

stayed at this hotel on several occasions, including on the night of the Baltimore Riots. I have always found the staff to be helpful and friendly. This was our first stay during a long road trip, and we were very pleased with the hotel room, bathroom and bed. The room was very clean and the

Sydney is set to hand out its first 'ditch the donut' stickers in a bid to improve the way it deals with rubbish. NSW Environment Minister Gabrielle Upton said the stickers would be aimed at litterbugs and encourage them to think twice before throwing donuts. Ms Upton said NSW had a "real

---

problem" with donut litter. She said donut sellers should do their bit to stop dumping the pastry's. "I know when I go to a coffee shop or a pie shop or a donut shop and I'm ordering that I expect to not be served a litter of donuts," Ms Upton said. "It's disgusting, it's unsightly. "We think that in the

---

small bit of time that those particularly lazy donut sellers have to manhandle those donuts from that tray, they could perhaps give that a thought and dispose of their waste in an appropriate way." The stickers show a garbage bin with a pile of donuts dumped on top of it. Ms Upton said "no one

---

wants that" and stressed that there were real penalties for litterbugs. "We spend a lot of time here in NSW talking about our waste and the way we deal with our rubbish," she said. "We have made a lot of progress over the last few years and I think it's only fair that we take this small amount of

---

time out to remind our donut sellers, or any other food sellers, that it's not a nice place to leave your rubbish."The field of the present invention is automatic glass coating apparatus of the type which may be readily retrofitted onto existing overhead delivery/collection carriages, for example,

---

which delivers/collects and glazes glass sheets generally in the form of thin sheets. The invention relates to a glass coating machine which is particularly adaptable to commercial glass coating processes such as those used for food packaging and like products, especially for packaging electronic

---

products. A typical commercial coating apparatus 10 is shown in FIG. 1. The apparatus 10 includes a curtain coating assembly 12, an exhaust panel 14, and a heater 16. Referring to FIGS. 1 to 3, the apparatus 10 essentially comprises an upper and a lower manifold 18, 20 which feed glass sheets

---

to be coated. The manifolds 18, 20 generally comprise conveyor or other sheet feed devices 22, each provided with a generally flat upper and lower platform, one or both of which is movable
